## DESIGNER COLLECTION

A curated range of French Oak floors, featuring our 12 best selling oiled finishes, from light to dark, textured to smooth. Suitable for large orders, with trade discounts applied.

[www.kite-flooring.com](http://www.kite-flooring.com)

### KEY FEATURES AND BENEFITS

- **French Oak:** Sustainable Oak with a consistent colour. The entire production process is controlled and managed by our partners in Belgium.
- **Birch Ply Core:** Layered boards give greater stability, especially in wide planks.
- **Customised Widths:** from 220mm up to 260mm. Narrow and wide planks also available
- **Long Planks:** Variable lengths up to 3m. 15mm thick, with 4mm oak veneers. Herringbone, Chevron, Panelled and XXL products also available.
- **Finishes:** Multiple coats of Ciranova oil, on either a UV or hard wax basis. More complex fumed, smoked, textured, distressed and reclaimed finishes available on request.
- **Natural Grade:** Some knots, but not too many.
- **Fast Lead Times:** Floors can be delivered to site, in any quantity, 4 to 6 weeks from order.
- **Matching Accessories:** Including Stair Cladding
- **Pricing:** 25% below retail price.

## OTHER NATURAL RANGES

### Bespoke Finishes

Due to our manufacturing relationships, Kite is able to produce any floor, of any specification, be it shape, texture, width and thickness.

This includes genuine reclaimed products, and unusual wood species such as Ash or Afromosia.

Choose the level of sheen, from matt to gloss.

## OTHER NATURAL RANGES

### Cork Flooring

Cork is one of the most sustainable flooring products available.

The floors are finished with a strong lacquer, giving them multiple uses.

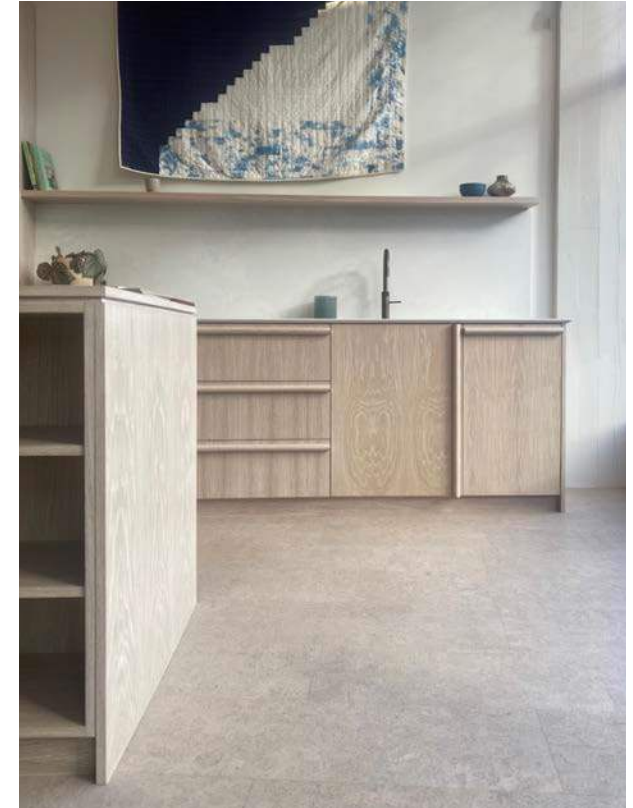

It can be fitted on a fully glued, or floated basis.

Kite has partnered directly with a Portuguese manufacturer, so for larger projects, is able to deliver significant savings compared to other providers, who purchase through wholesalers.

## STAIRS

Often it makes sense to clad an existing staircase in a matching timber to the flooring.

Steps can either be clad on site, or treads and rises can be joined with a mitre.

Kite also has a sanding team, if refinishing an existing staircase is required.

## OUR PROCESS

All our oak floors are made by our partners in Belgium.

This makes lead times shorter, and limitless customisation easy.

Many of our clients visit our factory prior to placing large orders, which is a short taxi from Lille, France.

Our clients are supported by our Sales Consultants in London, either through samples, or site or showroom visits.

[www.kite-flooring.com](http://www.kite-flooring.com)

## OUR FITTING TEAMS

Kite is passionate about professionally fitting floors.

All our fitting teams are NVQ qualified, and hold CSCS cards.

Kite also has a sanding and refinishing team, that can match any of our floor finishes.

We have a warehouse in East London for product storage, and a full service team to support our installations, from deliveries, through to customer care.

### **Kite Flooring for the best engineered flooring in London**

To begin with, I tried 20+ flooring stores independent and nationwide chains. I didn't come across anyone with a product knowledge similar to Ed of Kite Flooring. His passion for his product is what drove me to buy the flooring from Kite Flooring. Independent operation and customer focus is of primary importance to Ed and his colleagues. From the time I ordered the flooring to the time it got delivered Ed kept me informed of what is going to happen and when it is going to happen.

I think Ed is one of those rare entrepreneurs who visualises the customers needs and works in delivering on those. I would definitely recommend Kite flooring for any project, their quality and standard is amazing.

### **Incredible and reliable service**

Incredible and reliable service. Most flooring companies turned us away as they were daunted by the scale of our flooring project. Ed and the Kite Flooring team are exceptional and professional at what they do. If you need cork flooring fitted for any sized job trust Kite Flooring!

### **PATIENT, PROFESSIONAL & KNOWLEDGEABLE**

As an experienced developer, I have worked with numerous flooring contractors however Kite Flooring have now become my go to contractor. Ed is an absolute pleasure to work with. He's patient, knowledgeable and has a helpful demeanour. I look forward to working with Ed and his team on our next project.

### **Top marks, best supplier we worked with on our project!**

We have had a great experience with Kite, who installed herringbone engineered oak flooring in our living room. The floor is absolutely stunning (as an architect I am very picky), but we were equally impressed with how easy Kite were to work with. From day one, when they brought large scale sample boards to the site so that we could have a look at them in the actual space, through to the installation itself which was painless and quick, via lots of rearranging of dates by us as our construction project was delayed, they've been super helpful, flexible and professional. 100% would recommend!

### Highly recommend using Kite Flooring.

Great experience dealing with Andy and his team, highly recommend.

From first correspondence to handover, Kite were on hand whenever questions arose and were incredibly helpful and knowledgeable.

The flooring was of a very high standard - on par with larger high end flooring companies we have used previously. Our Client and Interior Designer were delighted.

We will definitely be using Kite Flooring again.

### Couldnt be better

Opening a shop and needed flooring on a tight turnaround time. I was desperate so contacted every online flooring company in the UK and walked into about 15 in London (east and west). I am SO grateful to have found Kite Flooring - couldn't have dealt with better people who went above and beyond. After being in their showroom I knew I was getting the flooring there, no question about it. In the end found something exactly in budget, with the delivery date required. Was great dealing with the business owners rather than some generic customer service rep too. Highly recommended. You will not be disappointed.
